

# FP Foresight Global Real Infrastructure Fund Factsheet

27 February 2026

The Fund invests in developed market “real infrastructure” companies that own or operate critical infrastructure assets which ensure the smooth functioning of economies, and that provide a net social or environmental benefit. The Manager takes an active approach to investing in infrastructure companies with high quality, predictable and often inflation linked cash flows from strong counterparties. The Fund seeks to grow, over any 5-year period, by more than 3% per annum above the rate of UK inflation (as measured by the UK Consumer Prices Index).

## Objective and Philosophy

Foresight Capital Management (“FCM”) are sustainability-led investors and take a forward-looking approach to evaluate risk and return prospects.

To grow, over any 5 year period, by more than 3% above the rate of UK inflation (as measured by UK CPI).

Own companies that operate in industries with secular and supportive tailwinds, resulting in attractive options for the deployment of capital.

Own companies whose strengths and qualities enables them to generate sufficient cash flow to drive shareholder value through growth initiatives, dividends, or share buy backs.

Own companies with management teams who are good stewards and allocators of capital, and which have a clear and understandable business strategy.

## SDR label

This Fund has a Sustainability Focus Label. For more information on the fund’s sustainability characteristics and metrics see the Consumer Facing Disclosure.

\*Following guidance issued by the Investment Association in November 2023, the synthetic OCF calculation excludes all close ended vehicles. The difference between the AMC and OCF is due to synthetic expenses from money market funds. The Fund’s operational expenses are capped and taken from the AMC.

This indicator above is not a measure of the risk of capital loss, but an estimated measure of the Fund's price movement over time. It is based on historical data and thus may not be a reliable indication of the future risk profile of the Fund. The Fund appears as a '6' on the scale. This is because it invests in the infrastructure industry and the Fund's simulated and/or realised return has experienced high rises and falls historically.

For full details of the Fund's risks please see the FP Foresight OEIC Prospectus, which is available [here](#).
