

FP WHEB Sustainability Impact Fund Factsheet

31 May 2026

WHEB is part of Foresight Group

Fund Objective and Investment Process

The aim of the Fund is to achieve capital growth over five years and contribute to positive sustainability impact over this period. The Fund focuses on the opportunities created by the transition to healthy, zero carbon and sustainable economies. The investment team selects high-quality companies from nine broad themes with strong growth characteristics to create a globally diversified portfolio. We develop long-term relationships with company managements to promote the best environmental, social and economic outcomes.

General Fund Information

Launch date: 8 June 2009
Launch price: 100.00p
Fund type: OEIC, UCITS
Daily dealing valuation point: 12 noon
IMA sector: Global
Minimum investment¹: £1

Indicative Characteristics

Holdings: 40-60
Expected tracking error range (ex post 5 year): 4-8%
Average holding period: 4-7 years

Actual Characteristics

Fund size: £371m
Holdings: 44
Holding period²: 2.80
Tracking Error³: 7.10
Active Share vs Benchmark⁴: 97.9%

The Impact Investment Team

The impact investment team is one of the most experienced in the sector with a leading edge in the analysis and integration of positive impact and environmental, social and governance factors into stock selection and financial performance.

Significant Portfolio Changes

Stock name	Purchase or sale	Theme	Brief description of purchase or sale rationale
Power Integrations	Sale	Resource Efficiency	Strong AI driven momentum left valuation increasingly stretched, with expectations running ahead of near term earnings delivery and broader end market fundamentals.
Tetra Tech	Purchase	Environmental Services	Highly specialised environmental consulting group supported by water, infrastructure and sustainability spending, offering resilient growth at an attractive valuation.
Verra Mobility	Sale	Safety	The unexpected loss of a key contract reinforced concerns around elevated customer concentration, limited revenue visibility, and less durable growth.

Top 10 Holdings as of 31 May 2026

Stock name	Theme	Description	Holding
First Solar	Cleaner Energy	First Solar is a US-based manufacturer of solar photovoltaic (PV) panels. Headquartered in Arizona, the company is the leading supplier of thin-film modules that are used primarily in utility-scale and commercial power plants. The company operates a sector leading approach to manufacture and recycling of its solar modules.	4.65%
Keyence	Resource Efficiency	Manufacturer of sensors and measuring instruments for factory automation, which help to achieve efficiency, energy savings, reduced wastage, and quality management	4.28%
Agilent	Health	A provider of bio-analytical measurement solutions to the life sciences, chemical analysis and healthcare industries. It also makes pollutant monitoring equipment for food and measures human body contamination.	4.00%
Aptiv	Sustainable Transport	Aptiv's mission is to 'enable a safer, greener and more connected future of mobility'. The company's products include high-voltage wiring and electrical centres, power distribution boxes and battery connectors, plug-in chargers and light-weight aluminium wiring all for use in electric vehicles.	3.89%
Ecolab	Water Management	Global provider of hygiene products (e.g. detergent) to restaurants, hotels and hospitals. Products need much less water to be effective	3.52%
Globus Medical	Health	Globus Medical is a best-in-class spinal medical technology company headquartered in Pennsylvania, US. It has a large portfolio of solutions to promote healing in patients with musculoskeletal disorders.	3.51%
Thermo Fisher	Health	A leading provider of analytical instruments, equipment, software and services for research and diagnostics in healthcare industries.	3.48%
TE Connectivity	Sustainable Transport	Leader in the connectors and sensors industry. Its electronic components, network solutions and wireless systems help to improve safety, as well as fuel and energy efficiency, in automotive and other markets	3.47%
Infineon Technologies	Sustainable Transport	Manufacturer of semiconductors and related systems. Products are key enablers of several important end markets, including electric and hybrid road vehicles, renewable power generation such as wind turbines, and efficient power management in industrial systems	3.46%
AstraZeneca	Health	High-quality pharma company with strong portfolio of commercial products that lead to better overall health outcomes for patients suffering from life-threatening or debilitating illness. Products target areas of high unmet need, particularly in the oncology and rare disease portfolios	3.35%

Awards and Ratings

Biggest movers over the month in local currency – Top 3 and bottom 3 performers

Stock name	Performance in month ⁶	What happened
First Solar	+51.96%	The company reported reassuring results and reiterated its guidance which turned around the negative sentiment on the stock. Expectations also improved regarding policy support and a demand spike ahead of the 4 July safe harbour deadline.
Infineon Technologies	+41.97%	Infineon increased its guidance and gave a very bullish outlook not only around data centres but also pointed to a recovery in autos and industrials orders in 2H.
Nextpower	+31.29%	Nextpower reported a “beat-and-raise” and continued to expand its product offering with a number of acquisitions which were viewed positively by the market.
Verra Mobility	-69.59%	An unexpected contract termination by a key customer prompted a material cut to 2026 guidance and raised concerns around customer concentration.
Trimble	-16.21%	Despite stronger Q1 results and raised guidance, investors focused on softer core end market conditions and questioned the pace at which software, recurring revenue and AI initiatives can offset cyclical pressure.
Boston Scientific	-16.14%	Softer WATCHMAN demand and reduced organic growth guidance outweighed solid Q1 delivery, raising concerns over near term momentum in a key growth franchise.

Comparative Performance (Figures are historic and past performance does not predict future returns).

Cumulative Performance	10 years	5 years	3 years	12 months	Year to date	3 months	1 month

Performance data correct as at 31 May 2026. The value of units in FP WHEB Sustainability Impact Fund ("Fund") may increase or Decrease and you may not get back the amount originally invested, for reasons including adverse market and foreign exchange rate movements. The FP WHEB Sustainability Impact C Acc share class performance is calculated net of expenses fees on a midday-to-midday basis. This may mean that there are discrepancies between the Index and the fund performance which are due to market movements after the midday cut-off, as MSCI World index performance is reported as of end of day. See footnote 7. Source: Bloomberg

Overlap: ~200 stocks;
(15.3% as at 31 May 2026) of MSCI
World Index

Theme Overlap

The thematic focus of the WHEB strategy means that our investable universe overlaps with this index by around 15%. This leads to significant structural biases in the fund's exposure, which may make comparison to the index complex. These style biases towards growth, quality and mid-cap are all derived from the strategy's focus on solutions to sustainability challenges. It means that we tend to be absent from significant sectors of traditional indices, such as financials and energy, and have significant overweights in other parts of the market, such as health and industrials.

Footnotes and important risk warnings

The FP WHEB Sustainability Impact Fund was originally launched on 8 Jun 2009. Effective re-launch as at 30 April 2012 after the portfolio was transitioned to a new investment process by a new investment team.

1. Minimum investment relates to R share class.
2. The average holding period is calculated by WHEB in accordance with the requirements of the UCITS V directive, and derived from fund turnover over the last 12 months as of the end of the reporting month. This calculation method can result in very long reported holding periods when most of the trading volume is explained by subscriptions and/or redemptions, and can even result in a negative portfolio turnover figure when subscriptions and redemptions exceed purchases and sales. As of 31 May 2026 the UCITS holding period based on the UCITS methodology was 3.22 years. During periods when the resulting figure is negative or more than 100 years, we will report the outcome here within the footnotes and not on the front page of this factsheet to avoid the risk of presenting a confusing figure.
3. Tracking error refers to the 5-year ex-post volatility from the average of excess returns versus the MSCI World Index.
4. Active Share refers to the % overlap between the Fund and MSCI World Index weightings. Data as at 31 May 2026 source: Factset.
5. Data for Theme Breakdown, Geographic Allocation and Market Capitalisation allocation are provided by FactSet. Small differences in cash percentage figures may arise.
6. Top and bottom performers in local currency.
7. The MSCI World Index is presented as a way of seeing how an investment in equities may perform. The Index is quoted at month end with net dividends reinvested and without the deduction of any expenses (in contrast to the portfolio). Index data are provided by MSCI Barra via Bloomberg, calculated using GBP. The MSCI World Index is unmanaged and cannot be invested in directly. MSCI returns may increase or decrease as a result of currency fluctuations. Performance figures for the FP WHEB Sustainability Impact Fund are calculated mid to mid.
8. The UK Gilt 5-10 Year Index is presented as a way of seeing how an investment in bonds may perform, source Bloomberg (as a proxy for the ICE BofA UK Govt 5-10 yr Bond Index).
9. The SONIA interest rate benchmark is presented as a way of seeing how a deposit in a bank account could grow, source Bloomberg (as a proxy for the UK Bank of England base rate).
10. Effective from 2nd January 2020, we have introduced a single, fixed rate "Management Fee" which includes all of the costs and charges that were previously in the ongoing charges figure (or "OCF") of the Fund. As a result, various costs and charges associated with services to the Fund such as depository and custody, transfer agency, legal, audit and fund accounting charges are now paid out of the single, fixed rate Management Fee. For further information see: <http://www.whebgroup.com/fp-wheb-sustainability-fund-moves-to-a-single-fee/>
11. The D Share Classes are Sponsor controlled share classes for use by intermediary and institutional managed / advised investments with a minimum holding of £25 million.
12. The B Share Class is only available to Founder Shareholders. To be eligible as a Founder Shareholder in the B Share Class, an investor must hold at least £10m across the Fund's share classes. Upon attaining the Class B Shares Investment Target

£100m, the Authorised Corporate Director has ceased admitting new Founder Shareholders.

Risks include: the value of units in FP WHEB Sustainability Impact Fund ("Fund") may increase or Decrease and you may not get back the amount originally invested, for reasons including adverse market and foreign exchange rate movements. **Past performance is not a reliable guide to future performance. Your capital is at risk.** The Fund invests in equities and is exposed to price fluctuations in the equity markets, and focuses on investments in mid-sized companies in certain sectors so its performance may not correlate closely with the MSCI World Index (a way of seeing how an investment in equities may perform). For full risks, please see fund prospectus on <https://foresight.group/strategies-funds/public-markets/sustainable-impact-strategies/fp-wheb-sustainability-impact-fund/>
