## Objective and Philosophy

- To generate income and preserve capital with potential for capital growth over an investment term of 5 years by investing in companies that have both infrastructure characteristics and provide environmental and/or social benefits.
- For these purposes, positive environmental and social benefits include increasing low-carbon energy capacity, generating low-carbon energy, or providing assets that facilitate essential services including transport, healthcare, education, and digital connectivity.
- These environmental and social benefits are provided by investing in companies which have a good 'footprint' (which is the environmental and social impact of their day-to-day operations) and a good 'handprint' (which is the scope of the individual company's goods and services to actively decarbonise an economic sector or provide a positive social outcome).

## SDR label

- This Fund has a Sustainability Focus Label. For more information on the fund's sustainability characteristics and metrics see the [Consumer Facing Disclosure](#).

\*The synthetic OCF calculation excludes all close ended vehicles. The difference between the AMC and OCF is due to synthetic expenses from money market funds. The Fund's operational expenses are capped and taken from the AMC.

## About the Manager

Founded in 1984, Foresight is a leading investment manager in real assets and capital for growth, operating across UK, Europe, and Australia. With decades of experience, Foresight offers investors access to attractive investment opportunities at the forefront of change. Foresight actively builds and grows investment solutions to support the energy transition, decarbonise industry, enhance nature recovery and realise the economic potential of ambitious companies. A constituent of the FTSE 250 index, Foresight’s diversified investment strategies combine financial and operational skillsets to maximise asset value and provide attractive returns to its investors. Its wide range of private and public funds is complemented with a variety of investment solutions designed for the retail market.

The Foresight Capital Management ("FCM") team, established in 2017, offers investors access to renewable energy, infrastructure, real estate and sustainable equity through actively managed open-ended funds investing in listed securities. The team draws on the wider Group’s experience of investing in private markets through the other divisions and applies these skills and knowledge to investing in public markets. Foresight is united by a shared commitment to build a sustainable future and grow thriving companies and economies.

## Risk and Reward Profile

Lower Risk Typically Lower Rewards				Higher Risk Typically Higher Rewards		
<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>

This indicator above is not a measure of the risk of capital loss, but an estimated measure of the Fund's price movement over time. It is based on historical data and thus may not be a reliable indication of the future risk profile of the Fund. The Fund appears as a '5' on the scale. This is because it invests in the infrastructure industry and the Fund's simulated and/or realised return has experienced high rises and falls historically.

For full details of the Fund's risks please see the FP Foresight OEIC Prospectus, which is available [here](#).
